

Santons de France USA Newsletter for 2017

The Village of Day's Ferry the home of Santons de France, USA

Several years ago, I created this watercolor painting of the village of Day's Ferry, in Woolwich Maine. It is in this village, on the banks of the Kennebec River, that the largest USA distributor of the santons of Marcel Carbonel reside. We carry the full line of santons and accessories in the 3 most popular sizes, #1 cricket, #2 elite, #3 grande.

For the past several years my daughter Holly has been assisting me in all aspects of the business and we look forward to hearing from you in this our 23rd year.

We enjoy assisting you in growing your collection of the beautifully crafted santons of the Carbonel family in Marseille France. Our new website launched this fall and we hope you find it a seamless transition.

The santons, along with their stories, bring the true meaning of Christmas into our homes, thus bringing Christ to the center of our celebration.
